**.22 Caliber Rifles and Cartridges for Shooting Right**

"FIRST get the right rifle and ammunition—then shoot right," says the old sportsman. He loves shooting, will not tolerate "putting" around at tin cans, dummies, "target shooting" competitions that are not regular, and his advice rings true.

Remington UMC .22 Rifles are made in nine different models, from single shot to autoloading repeater. Every one of them is made to shoot right with Remington UMC .22 Cartridges—some models are the favorites for shooting so win the Marksmen, Sharpshooters and Expert Rifleman U. S. Government decorations awarded to civilian and junior marksmen by the National Rifle Association at Washington.

## PAINT LICK'S PIG SHOW

The Boyle Pig Show which was held at Paint Lick Saturday, drew quite a crowd. There were eight entries and each deserves special mention, and the young farmers are to be congratulated for their perseverance and industry in bringing the swine to such a high standard of perfection. Jas. and Gordon Mason, sons of Mrs. Gilbert Mason, led the boys by taking three blues and a yellow with their pair of Kentucky Red Berkshires. The pigs were just five months old and one weighed 190 pounds and the other 162 pounds. The total cost of feed for the pigs since they began feeding them was \$14.05, which includes kitchen slop at five cents per gallon. The premiums awarded were as follows: Kentucky Red Berkshire premium for most gain at least cost, first premium, \$20 to James and Gordon Mason; second Rodney Kubston, \$12; third, Earl McWhorter, \$8; fourth, James and Gordon Mason, \$4. ## CHEWING GUM FOR YANKS

More than 2,000,000 packages of chewing gum have been ordered by the War Department to help the army keep off thirst during long marches. Lemon drops made from a special formula and canned tomatoes also have been ordered in large quantities for the same purposes, says a statement from the War Department. More and more open warfare in France is increasing the demand not only for thirst quenchers, but also for hard bread for marching rations.

## WAR'S TERRIBLE COST

Government expenses in August were at the rate of more than \$10,446 a minute, reaching the enormous total of \$1,890,513,000 and exceeding by more than \$200,000,000 the highest previous monthly record of expense since the war began. Of the total \$1,524,901,000 went for the upkeep of the army and navy, ship and airplane construction and other direct war expenses.

The Smith & Wesson Company has notified the War Department that it would rather be taken over by the Government than abide by a recent decision of the War Labor Board. The decision called for restoration of back pay for employees discharged for union membership and approved collective bargaining between employer and employees.

Announcement was made by Charles M. Schwab, director general of the Emergency Fleet Corporation, that a new tonnage record had been established in August with the completion of sixty-six ships by American shipyards. The board has now completed more than 2,000,000 tons of shipping.

## Those Famous Boots of Charlie's Are to Be Put to the Kaiser

TO HELP in the great work of "putting the boots" to the Kaiser, Charlie Chaplin has donated his funny old boots. And with the boots, of course, go Charlie and his cane and his kicks and his wriggles. He is among the stars of the motion picture industry who have donated their services for the making of a series of motion picture films which will be used throughout the Fourth Liberty Loan drive in every theater in the United States.

No star in the country who has ever been a topline will be left out. All have expressed a willingness to play a part in the game of helping sell bonds. Scenarios for the Liberty Loan pictures were written by the best known editors of the country and by the best talent in the motion picture studios. Every picture will not only contain the plea for purchase of Liberty Bonds but will be an interesting story in itself.

CHARLES CHAPLIN.

During the three weeks of the drive—September 28 to October 19—a different picture will be shown in each movie house in the country each night. Three thousand copies of the pictures will be in constant circulation.

## WEALTH PUT IN BONDS HASN'T BEEN MISSED

America Has Not Begun Yet to Really Sacrifice to Lead to Boys.

BY DELLA THOMPSON LUTES  
Author of "My Boy in Khaki" and Editor of American Motherhood.

There is more than one way to fight. There are sea, land, air battles. There are also battles in the pantry, at the kitchen stove, and on the front piazza. Yes, there are even battles in the pocket book.

Unless every person left in America gets into the fight somewhere along the line, the soldiers at the front will have to fight just so much harder, just so much longer, lose so much more blood—give up so many more lives.

Of course the war might be won if you—just you did nothing to help. But when you read these words, a good many thousands others are reading them. So, if you laid down on the job to let the boys fight for you, and every other you of thousands did the same thing, who would feed the boys who are fighting? Who would clothe them, nurse them, entertain them, munition them?

In America there is plenty of money yet, even though billions of dollars have been raised since we entered the war. The money already raised could be spared as well as not. We have not yet learned to go without in order that we may loan our money to the boys. Uncle Sam handles it, but it goes to the boys. Into the equipment for them, clothes and blankets to make them comfortable, and guns and ammunition to save their lives—and ours.

It is not our fault that there is war. We went in because a decent man cannot stand by and see a bully beat a weaker creature to death, violating every rule of the game.

And now that we are in it we must fight to the last ditch to rid the world of the horrid monster which brought this cataclysm of blood and death upon us. We must fight to the last ditch, and to the last man—and woman.

The men who plow and sow and raise more produce are fighting.

The men who work in factories and shops and ship yards are fighting.

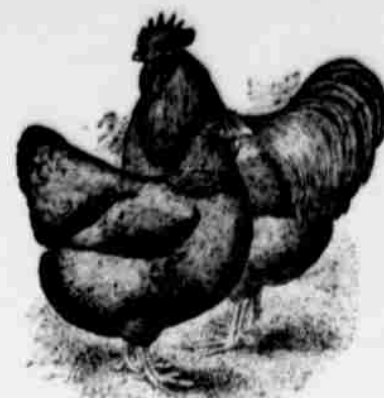

The men and women who work in government offices are fighting.

The women who stay at home are fighting—if they play a square game.

Every person who buys a Liberty Bond is fighting. Some are fighting harder than others because some sacrifice more than others in order to buy their bonds, but all are fighting.

The boys are giving up—everything. They need our help. They will fail if we fail them.
